

ALK POSITIVE RESEARCH STUDY

Living Longer with ALK Positive
Lung Cancer: Share Your Story

**Modern targeted
therapies are helping
patients live longer
with ALK positive lung
cancer. But what is it
really like to navigate
life with this condition?
We want to hear from
you.**

Who can participate?

- Anyone in Australia with advanced ALK positive lung cancer
- Must have been on treatment for more than a year

What's Involved?

- A single online (or in-person) interview where you can share your experiences and what has been important to you
- Expected to take about 30 - 60 minutes of your time
- Your participation is anonymous

**Your insights will help improve care and support for patients with
ALK positive lung cancer in Australia.**

For more information or to participate, please email:

 ALKpositive@sjog.org.au
